

Ethical and Legal Declarations

WARPS-NFL: A Preseason Win-Total Forecasting Model for the National Football League

Conflict of Interest Statement

The author declares no conflicts of interest. This research was conducted independently with no financial relationships with any organizations that could be perceived to have influenced the study.

Funding Statement

This research received no external funding. All work was conducted independently by the author.

Data Availability Statement

All data used in this study are publicly available. Play-by-play data are sourced from the `nffastR` R package (Baldwin and Carl, 2020), available at <https://github.com/nflverse/nffastR>. Historical preseason win totals are sourced from `nflverse` (<https://github.com/nflverse/nfldata>). All analysis code and output files are available at <https://github.com/whatsaliju/nfl-betting-automation> under the MIT License.

Ethics Approval Statement

Not applicable. This study uses only publicly available, aggregated sports statistics. No human subjects, patients, clinical data, or personally identifiable information were involved in this research.

Author Contributions

Liju Varughese: Conceptualization, Methodology, Software, Formal Analysis, Writing — Original Draft, Writing — Review & Editing.

Informed Consent
